

## **Pantanal (north) at Araras Ecolodge** **04 DAYS / 03 NIGHTS**

**Duration:** Guests arriving in the morning of DAY 1 and departing in the afternoon of DAY 4;

**Guest & Package Profile:** This is a great option for discovering Brazilian richest region in terms of fauna and flora: the Pantanal. It is a package suitable for nature lovers who also want comfort. Covering an area of approximately 143,000 square miles, the Pantanal is the largest floodplain in the Americas. The area is unique in the world. Savannah lowlands, floodplains and forests are influenced by the Amazon Forest and the scrublands of "Caatinga", creating a vast mixture of ecosystems. The balance of these ecosystems depends entirely on the water cycles of wet and dry seasons in the region.

Located amidst this unique and rare biological diversity is the ARARAS ECO LODGE (16° 30' 42.3" South latitude; 56° 42' 39.4" West longitude). Built in harmony with the environment, without renouncing comfort, the lodge is reachable all year-round by car via the Transpantaneira Park Road, south of Cuiabá (the capital of the State of Mato Grosso). From this lodge, with its enviably preserved surroundings, it is possible to do first-class bird-watching, trekking in pristine forest, canoeing, horseback riding, truck photo-safaris, night tours and much more, all under the assistance of expert bilingual naturalist guides.

**When to go:** All the year round. From January to March Pantanal is flooded. From April to July is drying out and from August to December it is dry. Low season is Jan to May. High season is Jun to Dec.
